St. John's High School

St. John's High School 2014-2015

Principal's Message

Yearbooks capture “a moment of time”. Many years later, your yearbook will become your “treasure trove” inciting memories of your time at St John’s High School. It will recall the friends you have had, the teachers and educational assistants that you have shared learning experiences and multiple times you “just had fun”. It has been said that “nothing is ever really lost to us as long as we remember it”. Take time to remember your experiences at St John’s High School. “Once a Tiger always a Tiger” is a saying that will be with you throughout your journey in life. Wishing you the “remembrance of your moments”.....

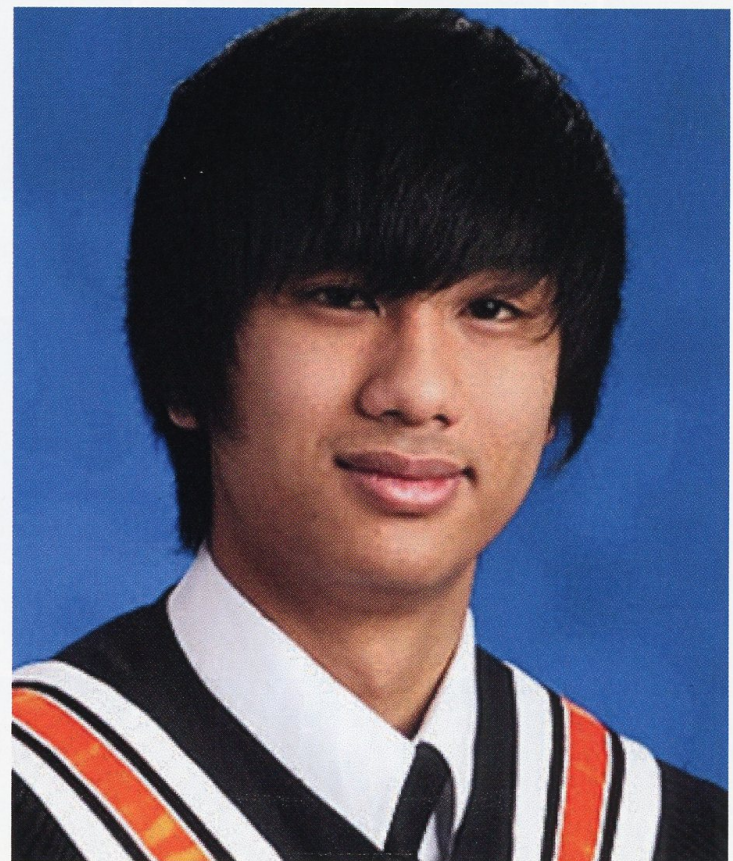

Mr. D. Taylor

Principal, St John’s High School

Student Council Co-Presidents

Student council has given us many valuable learning experiences, especially in grade 12; as student council co-presidents. A position such as this requires us to think about how others feel, what others want and how to execute plans and events. A position such as co-president can be overwhelming at first, but having great people around to help out definitely relieves some of the pressure. One thing is for sure; you cannot do it alone! Many of life's challenges (school being one of them) requires the help and support of others. Despite some of the stress and pressure that comes with this position, we were able to keep busy and have fun during the whole process. If we had a piece of advice to give to our fellow St. John's High School students, it would be to get involved. Although academic learning is important, the most valuable lessons that we have learned throughout our years in high school are the ones we learned through being involved in sports and extra curricular activities such as student council. Being involved in school clubs and teams also gave us the most memorable and enjoyable experiences. So, make the most out of your years left in school, because we only get to experience high school once.

The background features a close-up of a hand holding a large, textured leaf. The leaf's veins are clearly visible, creating a complex, organic pattern. In the background, a silhouette of a city skyline is visible against a warm, orange-hued sky, suggesting a sunset or sunrise. The overall composition is layered and artistic.

Valedictorian Speech

By: Emma Porter

Years hence, wherever we may be we will undoubtedly find ourselves reflecting on those bittersweet, turbulent days of adolescence. The laughter, the wild rides, and of course the tears. My first day at St. John's was a rollercoaster of emotions, I was terrified of the large, stern-faced high schoolers, excited to be free from the limited confines of elementary school and so nervous I thought I'd throw up! I've lost track of how many times I ran into a wall because I had my head constantly buried in my class schedule.

Every day I'd eat lunch alone at the back of the library with my nose in a book, after a while a boy named Shaun – known affectionately as mocha to his friends, started to eat with me. Such a small gesture as him sharing his time and his smile made my day. My point is that a little goes a long way. We can never really know exactly what a person's going through but a smile and a friendly hello can be the greatest gift you can give a person, it can turn their whole day around.

The soul of St. John's is its student body and its staff, what sets it apart from other schools. We've been fortunate enough to have a kind and caring teaching staff who do not hesitate to offer genuine and unfaltering support. How many schools can say that with confidence?

I know that teachers can sometimes be intimidating and we are reluctant to share our problems or ask for help but we shouldn't be afraid! Because our teacher – our greatest supporters, have always been there for us! Through the stressful, long draw-out days where we feel like just leaning back and nodding off in our seats or when we want to go crazy and pull our hair out from the roots! And believe me, I have done both multiple times.

Regardless of how close – or not – you are to your teachers, every one of them are unique individuals who have left lasting impressions upon us all: Miss Robbie who never fails to light up a room with her smile and verve, Mr. Bravo who is a source of limitless witty humour but isn't afraid to assert his authority, and Mr. Harrysingh who always keeps his class focused and engaged in interesting and entertaining lectures. There are so many more wonderful staff members I could address but then we'd be here for hours!

We who are gathered here have faced many trials and tribulations, not just as members of the graduating student body but also this community. We often hear about from others, tales of the sorry state this neighbourhood is in; "there's so much crime," "It's creepy," "all the people there are criminals." Every day we struggle to break free from these stereotypes and the securitization and expectations of others. Because the sorry truth is that people out there don't believe we can succeed, but just look at where we are!

All of us gathered here today stand as proud, successful graduates of St. John's, the fact that I stand before you all proves all the naysayers wrong, that all the blood, sweat, and tears were worth it! We have proven not only to them but to this community and most importantly ourselves that we can succeed!

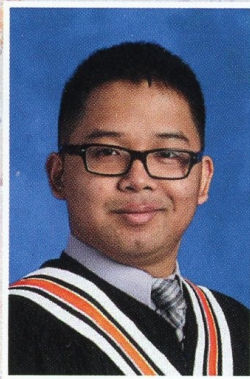

People may forgive and forget but despite all the hardships we've had to endure to get this far I wouldn't change a single thing. Because those experiences are part of who made me; us who we are today and are memories that I'll always carry with me. In the words of Rob Thomas, "all of my regret will wash away somehow but I cannot forget the way I feel right now."
