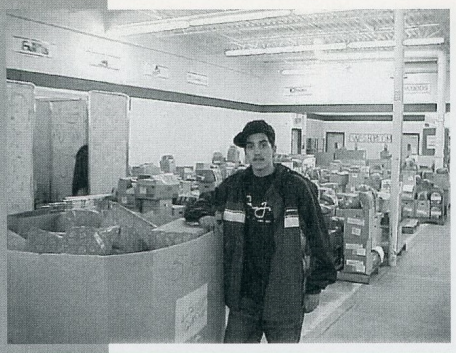
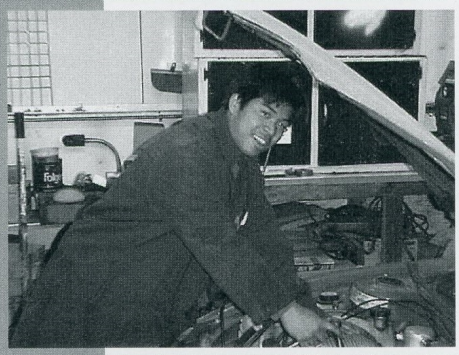
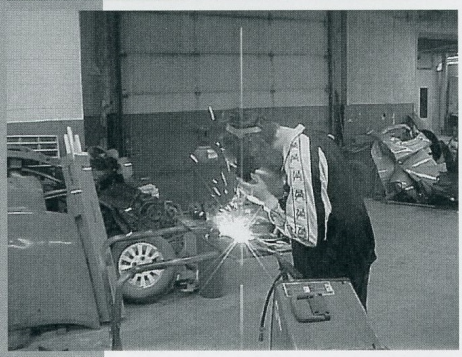
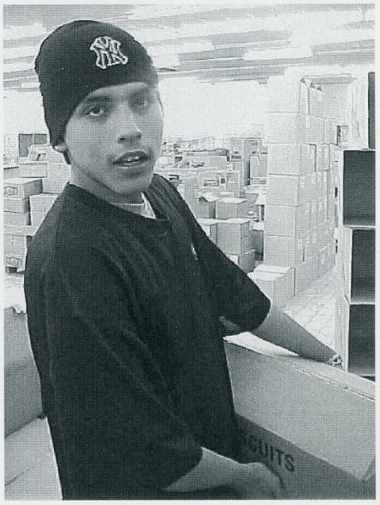
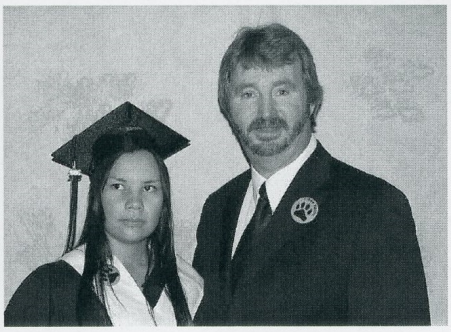
Pre-Employment











The staff and students in the Pre-Employment program mourn the loss of recent grad Shaun LaForte who died tragically two months after his graduation.

Front: Samantha Passage, Lindsay Belanger, Maxine Young, Kayla Nyquest, Roxanne Melquist, Erin Shultz, Wendy Taylor
Back: Dado Mas, Brad Harper, Waylon Fagnan, David Nyquest, Chris Lakus

In Pre-Employment we explore new directions in life. We get work experience, help people, and have fun learning. This program is for grade ten eleven and twelve students. Students alternate three months work experience and three months academics. Many students find summer jobs through their work placements.

The Leadership group had a very successful year giving back to the St. John's Community. Each student volunteered over 55 hours by scorekeeping basketball, officiating volleyball, coaching beeball, officiating at the track meet, and helping to organize the athletic banquet.

Thanks for all your help!

The St. John's Tigers Rugby team has not lost a game in two years. In doing so it has captured two city and provincial championships. The team is now considered the premiere high school rugby squad in Manitoba. This year's team was very impressive, an undefeated season with 291 points scored and only 50 against. With 18 players, returning from its 20-man roster the team is considered the favorite to win next year's city and provincial championships.

The 2005 season was challenging for the Tiger Football Team. With only six graduating players and a host of inexperienced S1 and S2 players, the Tigers used the season to improve and mature for the future. The season was not without highlights however. Joey Ledoux was selected by the league coaches as the Most Valuable Defensive Player in the league. Joey and Andrew Raposo were selected for the Anavets All-Star Team, while Andrew and Chris Lakus were selected to play in the Blue Bomber Alumni Senior Bowl. Other highlights for the team saw young players like Michael Waschenfelder and Robert Pearson emerge and blossom into dominant high school football players. The 2006 season will see the Tigers field their strongest team in a number of seasons, thanks to veterans like Danny Grindle, Chris Desjarlais and Travis Downing - By Coach Orobko

Valedictory Address

Crizelle Delacruz

Good morning principals and honored guests. Greetings family and friends. Salutations teachers and staff and hello distinguished graduates. I would first like to begin by saying: Yippee-kayay! Woot woot! High School is over and a round of pints for everyone! Secondly, I'd like to say, thank-you to everyone who came here today to share this momentous occasion with the graduating class of 2006. It seems almost unbelievable that we've been able to make it this far. We have spent countless hours on homework, studied endlessly for tests, used great energy to come to class and a tremendous amount of effort just to stay awake once we got there. But all of it has paid off. As Aristotle once said, "the roots of education are bitter, but the fruit is sweet" and for all of us today the fruit just got sweeter.

It's funny because it feels like only yesterday that I set foot in St. John's. As I can recall I found myself to be excited and apprehensive at the same time. (I remember that well because it was just two years ago.) My intention in coming to St. John's was to focus on my academic studies without the necessity of having friends or inappropriate criticism to distract me from achieving my goals. I was once convinced that I didn't need people to help me shape my future or destroy it. But to my surprise, even with my tough exterior, skateboard in one hand, a clenched fist with the other and my usual blue, green, pink, blond and black hair, I was welcomed with open arms by both the staff and students of the school. (Even though some of you assumed I was a bit weird - well, maybe I still am.) The best part about having been surrounded and acknowledged by these wonderful people in such a short period of time is that they became the foundation of my success, achievements and adventures, aiding in the development of my new thoughtful, humane and compassionate perspective on life.

For those of you who don't know, our graduating class was cursed. Trips were canceled, people lost interest in committees, the work load was heavy and of course teenage drama is always an essential. The only thing we had going for us was our friendship and experiences with one another. We've struggled together to meet Ocharuk's deadlines, endure Harper's lectures and avoid the wrath of Gannon. We've listened to each others' dilemmas, gave advice on how to handle a relationship and helped with tiring conflicts at home. We made it possible to conquer high school and life's endeavors because of these experiences. Whether or not you realize it, each of you is an inspiration on your own, expressing your opinions, imparting your wisdom to others. You are living proof that anyone is capable of achieving greatness. So cherish and use every experience, good or bad, to comfort you in the years ahead.

As I continue to stand here, attempting to be poignant while I try to keep your attention, all I have to say about the future is: don't fear it. Toss the idea of fate aside and create your own destiny. Choose your own paths, deal with the struggles of life and lead yourself to greatness. Today and from now on is when we will be given the chance to see that our hard work and sacrifices have paid off. Just remember to be confident in your potential to become who you want to be and to do what you want to do with your life. Whether you become a superstar athlete in the NBA, a business representative for a billion dollar company or an ultimate cage fighter/professional underwater basket weaver - Greatness is your happiness and your ambition to be great will get you there.

So remember before you leave here today, thank your teachers for their guidance and wisdom to aid you in becoming a successful novelist, your families for supporting your decision to become a dentist and of course, your friends for being there for you in the past, present and future. So go out there, take hold of your dreams and build upon your happiness. And if you're finding your tower of happiness is just not high enough, then look to your building blocks of experience, mentors, family and friends and get there. A man by the name of Ralph Marston once said: "Your goal, minus your doubts equals your reality." And by molding your dreams into your realities, I guarantee you a ticket to happiness. Thank you, congratulations and rawk out!!
