**Dedicated To
The Memory Of
George Joseph Reeve**

“Men may come and men may go, but the memory of George Joseph Reeve will go on as long as St. John’s High School stands.”

Mr. Reeve was born in 1886, in England, where he graduated from Oxford University. He came to Winnipeg in 1913, and gained much of his teaching experience at St. John’s High. He went on to become a principal of our school in 1925 and remained until his retirement in 1952.

Mr. Reeve initiated student self-government, for he felt that this would help students to develop their sense of responsibility. This was one of the first student councils in Canada. Under G. J. Reeve’s leadership, the school also undertook the organization of a school library.

Because of his great perception and foresight into the problems of the student, G. J. Reeve will long be remembered for his contributions to the progress of our school system.

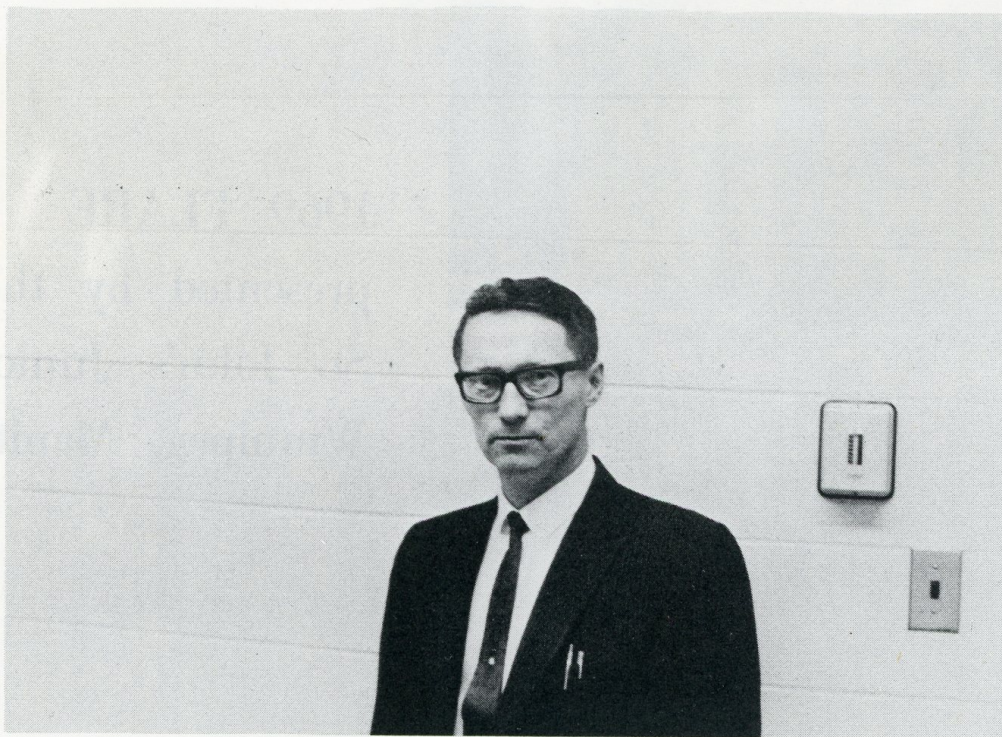

1969 FLARE

presented by the students of
St. John's Junior High
Winnipeg, Manitoba.

Mr. Isaak's Message

We have witnessed with some trepidation the tentative first preparations, then the frantic hustle and bustle of passing pictures, editing write-ups, and finally the launching of this first issue of the Flare. It represents a major new undertaking for our junior high students. We trust it will be successful from every point of view.

The committees who worked so hard at this project, no doubt consider it of great importance; and so it is. But permit me to point out to you what is the most important aspect of the current school year. It is not that we produced a yearbook of our own — a junior companion for the Torch; it is not that our social activities outranked those of the previous year; it is not the excitement of producing our own Variety Concert; nor is it whether or not our athletic teams or festival entries brought home more trophies than ever before. The most important matter is what has happened within each individual student. Each of you has again taken one more big step in the count-down

of your educational career. Of greatest significance is not that you are now one step closer to your own “blast-off” into the world, but rather what you have done during this year to make your flight more successful. Have you built a more reliable guidance system into your space craft? Have you increased your power of knowledge for the long flight ahead? Have you matured in wisdom to make decisions more wisely than before?

We trust you are better equipped than any generation of students has ever been. But still, like parents, an institution can eventually only hope in faith that all our efforts, and yours, will not have been in vain. The ultimate signal of “All systems A - OK” from each one of you out on your own individual orbit is, in the final analysis, the most important matter. May your orbit be true and your trail be bright even as this Flare goes up as a beacon to beckon all that will follow.

Editorial

This year at St. John's was not uneventful, but it was not what can be called a particularly exciting one, either. Under a sterile student council, devoid of new imaginative ideas for student government and activities, an already apathetic student body did little to shake off the general boredom and stagnation that set in.

There were exceptions to this general mood of "nothing" that cast a real ray of light on an otherwise bleak outlook. Although council was an unproductive *token* of student involvement, there were a few individuals who felt the need and did their best to make a meaningful contribution to school spirit, and though a minority, they raised the calibre of council by the very fact that they were there.

Although the Junior Red Cross was a dismal failure, I know that there were one or two individuals who did care, but became submerged in the majority.

Although the Flare itself was nearly killed by student non-involvement, I know that it was a supreme effort by a small number of individuals, out of a student body of 700, that pulled the book to its feet. I have nothing but the highest praise for my very close associates Richard Yaffe, Susan Israel, and Donna Kormilo, who helped accomplish an amazing task — putting out a yearbook; in fact, establishing a yearbook.

I find it interesting to note that in the only activity not plagued by apathy, St. John's was superlative. I am referring, of course, to our track teams, which brought to this school two city championships and one provincial championship. An amazing number of students either participated or made vocal their support, and look at the results. We have every right to be proud of them, and I hope that in future years we will be proud of them — proud enough to support, participate, and keep them at the top.

And the top is where *all* our teams should be. We have the talent but won't show the interest. If our school keeps on this way, we have *nothing* to be proud of. We can only expect to go down, not up, and there is only one way to get to the top, and stay at the top — GIVE A DAMN!

In summing up, I shall include the classical "capsulized valedictory" material which is standard for most yearbook editorials, and which I have omitted up to now. I would like to thank staff advisors Miss Teplitsky, Mrs. Israels, and Mr. Swandell, along with Mr. Isaak, who helped a great deal, and a few others who kept us company, and went to the stores for us. I would also like to extend my best wishes to all of you taking the time out to glance over this short collection of my beefs, opinions, and impressions, of this year at St. John's.

Thank You.

Junior High Council Report

The Student Council succeeded in accomplishing the majority of student requests this year.

Student Council meetings were held quite frequently, usually with a good representation.

Early in the year Council started the Junior High Chess Club which was very successful. Many tournaments were held with the teachers, the Senior High Chess Club, and other schools.

To ease the boredom of lunch hour, Council piped music through the halls from 12:30 to 1:00 P.M. and before 9:00 A.M. The music was discontinued at Easter.

The most progressive change that the whole student body saw this year was the relaxing of the dress code for girls. The Senior High Council should receive a lot of credit for this effort.

Council held many successful soc-hops as well as Blackout; the one evening dance, held on November the eighth.

For a touch of sentimentality Council sponsored a trip to the Gaiety Theatre to see the production "Romeo and Juliet" at reduced students rates. Almost one hundred students took advantage of this offer.

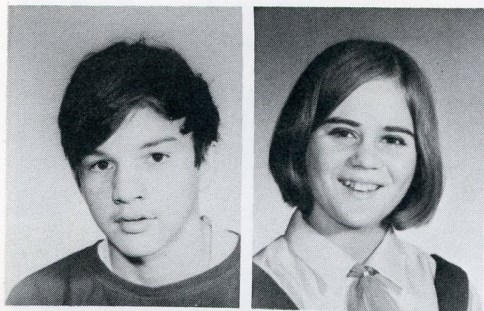

"Spring Fling", our own Variety Concert, which was promoted by Council, was a gigantic success. The many talents of our Junior High Students were displayed at this event. The concert could not have been possible without the support and co-operation of students and teachers.

Everything considered, Council had a successful year.

Susan Israel
Council Secretary

Tiny flower, oh so small
 Sitting in the sun,
 Watching children prancing by
 And wishing she could run.

Tiny flower, oh so small
 Watching the velvet blue sky,
 Seeing the birds glide through the air
 And wishing she could fly.

Tiny flower, oh so small
 Sees two boys play peek-a-boo,
 Hears their mothers call them in
 And wishes she could go in too.

Tiny Flower, oh so small
 Watched a puppy bury a twig,
 Wished she was a puppy too
 Cause then she'd be able to dig.

Tiny flower, oh so small
 Saw a pretty girl one day,
 Tiny flower, so surprised
 Heard the little girl say,

"Tiny flower, oh so small
 You're as pretty as can be,
 I wish, I wish I could be you
 And then you would be me."

Tiny flower, oh so small,
 Happy as a flower, after all!

—Catherine Wolfe

I am cold and lean and tough.
 I am strength,
 I am power,
 From my smoking nostrils come wealth.
 I know no master;
 Whoever wields me is an ally;
 Whoever stands against me is an enemy.
 My purpose is death,
 My message is destruction,
 My lips blossom flame and my touch is fatal.
 My explosive orgasm ejects an abortive sperm.
 My name is Colt.

OUR LIVING HELL

The home was a smouldering mass of fumes, reeking of the booze that was being guzzled incessantly. It was stifling hot, and breathing became intermittent gasps of air. A sense of drowsiness began to surmount our minds; we found it laborious to keep our eyes alert and watchful. I noticed that the clock had stopped, but what of it, I thought. What purpose did it serve these bourgeois; time was now to them, no worries about tomorrow, or the future. There was the politician, the execs, the odd prosperous salesman, and the beautiful women to make them contented. They were impregnated with transgression, a lust for money, and all the pleasures it brought them. They hustled and romped around chasing their new girlfriends. Pillars of Society? Hah! I laughed to myself, and suddenly felt a sense of loss for the unaware society. The mounting tumult, the disgusting atmosphere soon sickened me. Escape! I had to run, get out of that condemned house, leave those perverted people and start over. It could be a new, vibrant life, with sincerity and understanding, and love, and, well, everything to make it blissful. I was so excited about my realization that I jumped up and dashed for the door, leaving friends aghast I was thoroughly thrilled and ecstatic about my discovery that I just kept heading farther away from that house, splashing through water puddles, tripping over ridges, skipping through stacks of neatly raked leaves, jumping to reach the bare branches of leaves. I was a beginning, and a promising one!

Suddenly there was a turbulence and weird thunderous rumbling. Households were awakened, women screamed in fear, the city became clamorous. There was chaos in the street; confusion and violence was approaching its peak of destruction. The ground began to jerk beneath my feet. Buildings soon became loosened of their foundations, and began to topple over, trees were slashed down the middle, houses became completely demolished. And then it was black, and so quiet

I had gained consciousness the next morning. It was bright, and sunny and beautiful again when I opened my eyes. How grand to perceive the sun's rays penetrating the dewy mist, and the sweet scent of lilacs perfuming the air. I was brimming with zest until I visioned a total plight of a town. Mass destruction in every conceivable area, smashed cars, houses pulverized, famous landmarks disintegrated, gas stations flaming. It was a desolate land of burning ruins, it wasn't a beginning anymore, it was an end! Where could I ever hope to start over? With whom? There were corpses splattered around me, some pitifully mutilated, some burned and slashed, and some buried deep under tons of immovable rock. It was so depressing, bodies sprawled dead encircling me.

But I was alive! Thousands of good, innocent people dead and I, here, am perfectly well to live amongst death and ugliness. I supposed this was penance for all my misdemeanors. I ran blindly screaming for help, praying for recognition. There were endless hours of mental torture, stumbling over outstretched arms and witnessing faces that grieved agonizing pain. I was half delirious with fright and the fact that I am indeed the only human living here within hundreds of miles was eating away at my nerves. Dusk was setting in and it was much chillier now; the sky was billows of black smoke hovering over a forlorn expanse of wasteland.

I stopped and rummaged through a grocery store helping myself to some edible food. Plenty of canned foods sprawled around, but what of an opener I was encircled with supreme misery, doomed to live a life of outright hell.

The following day had remarkably pleasant qualities. A beaming sun, a hazy sky, and a general preferred atmosphere to the last. My adventures led me to the rural district, somewhat less in disarray.

It was when I heard the fervent shouts of a person, somebody alive, that I felt a sense of triumph. I responded immediately, screeching that my throat throbbed with pain. A fantastic elation overtook my mind, a happiness I had not known for a long time. We approached each other, still racing in delight at our encounter. Panting and exhausted we laughed until tears of joy dashed down our faces. He was young and endowed with elements that categorized him handsome. I stood quite awed when I noticed his white collar. A priest! What kind of an inconceivable combination was that? Perhaps it was intended that we should survive — someone who had the will and desire to live, and someone to encourage and have faith in the gloomy prospects. Yes, that seemed the most likely solution to me. We walked along, determined, and inseparable. Determined to start anew, inseparable because it would take the both of us.

In the 68-69 season, St. John's was outstanding in cross country, and cross country running is a sport in which all the members of the team must run well in order for the team to win. To produce a winning team, talent, training, and spirit must exist. All cross country teams running for St. John's had these, but especially the Senior Boys' and Girls' teams, which walked away with the city crown in their respective classes. The Junior Boys finished in 5th place and the Junior Girls ended up 4th against the rest of the city.

The outstanding performances of both senior teams led them to compete against gale force winds, and the province's best runners in Brandon. The opposing teams were very strong. The St. John's Senior Girls finished second and the Senior Boys placed third.

After the adventures of the cross country season, the St. John's people began preparing to defend their indoor championship which they had won the year before at the Red River Relays. St. John's survived the onslaught of many good Junior High teams because its team was great. A triple batch of firsts and many seconds and thirds at the Minto Armouries were the reasons. Winning by 30 points was a great improve-

ment over the previous year, in which St. John's won by only one point.

Talent, combined with hard work and a good coach is why St. John's was on top. During parts of the year, some tracksters trained thrice daily; two sessions of running and one of weightlifting. During the winter, most training was done in the hallowed halls of the school. Experience was another factor in winning, and some athletes were veterans of years of racing. Many runners doubled school competition with track club competition, because many were members of the Winnipeg Wings T.C. This club took them on trips giving them experience against top competition.

The champs lost one. At the St. Vital Invitational Junior High Track Meet, the outdoor championships, St. John's lost its provincial title. Great showings were produced by many, but a lack of depth and participation brought about defeat and fourth place.

With more participation in future years by the latent talent in St. John's, it will continue to match the great record of the 68-69 track team.
