OSt. John's O'Cigh OSchool

996-1997

Daniel Kutcher

Leaders of the Pack

As I reflect on the 1996-97 school year, I am reminded of all the people who play an important role in your education. Thanks to the enthusiasum of students, the commitment of staff and the support of parents, this year has been a successful one.

The Yearbook Committee is to be commended for their dedication in providing a yearbook which captures

1996-97 in pictures and print. This yearbook will grow in value as it grows in age and will crystallize many good memories for you from your high school days.

Congratulations to the members of the graduating class. You have made a valuable contribution to the community of St. John's and many of your achievements will become a part of the tradition of St. John's. You have developed a solid ethic, an enthusiasm for new experiences and a network of friends to support you as you take this next step. The life experiences you have dealt with over your high school career will stand you in good stead as you encounter many new situations in the greater community.

On behalf of the staff, I wish you success in all your future endeavours.

R. M. Wilkes Principal To the students of St. John's High School:

Your place in St. John's history is written day by day. Every exam you write, teacher you meet, sport you play, committee you work on, every joyous or sad event leaves an

indenible mark. I feel fortunate to have been a part of your lives these past two years.

Best wishes to the graduating class. Take good care of yourselves.

C. Barkwell Vice-Principal

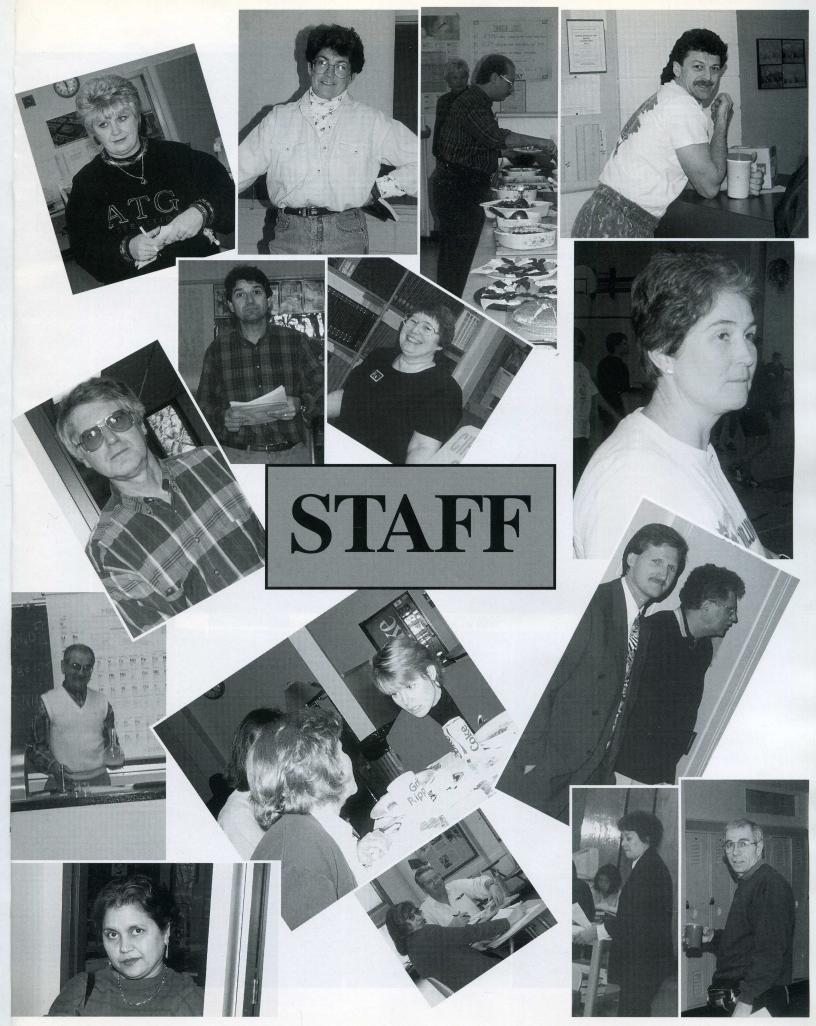

Before anything else, I would like to thank Chris for his kind words and support, and also for "putting up" with me all year and standing by my side. Chris and I wanted our last year at St. John's to be the best. We put our ideas together and came up with tradition with a twist. With our enthusiastic council members we took some risks, tried new things and had fun along the way. I hope you all enjoyed the "Cha-cha", decorating your homeroom for Christmas, winning prizes during Spirit Week, and had fun at our B.B.Q. in the field. A few words to those left behind - Keep the torch burning bright and your Tiger Pride alive.

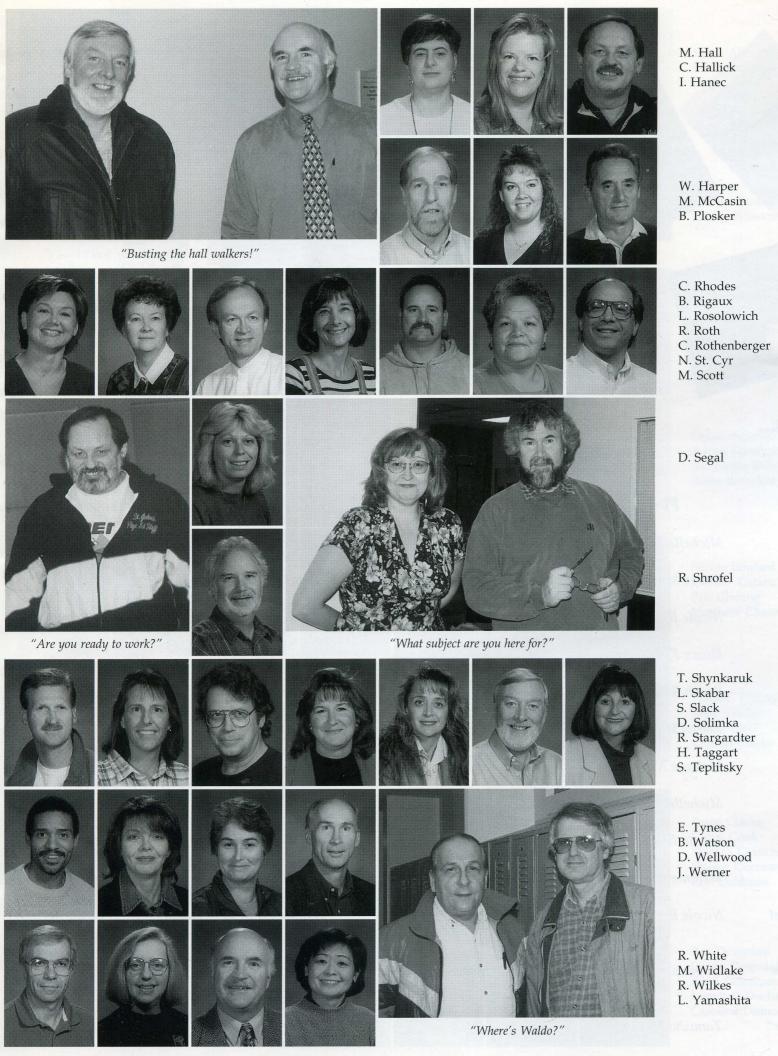

Well, it's been a long year. Personally, I had a lot of fun being April's Vice-President. I would really like to thank April for taking a chance and asking me to be Vice. In my whole life I would have never thought of or considered becoming Vice-President. Heck, before this year I wasn't even involved in student council. I have to admit, sometimes the job got a bit out of control (let's just say books went flying), but I guess that comes with the territory. In closing, I want to thank everyone involved in council for helping out, but again, April, thanks!

April Storm/Flood of the Century

Our Japanese Exchange Student

1. **Did you enjoy your stay in Winnipeg?** It was a good experience when I think of it in the future. I saw snow, -35° weather, different foods, and mosquitoes.

2. What did you like about Winnipeg? I liked almost everything about the people, there are many different nationalities. Winnipeg's very multicultural! The food was good and so were the students. They all have their own nature.

3. What did you think of Winnipeg's weather?

Winnipeg's weather was too cold. I think there's something wrong with the weather. The worst things that happened were the snow and the flood.

4. What do you like about St. John's? I like that there were no uniforms and no

rules about appearance. You can wear makeup, different nail polish colours, and you can dye your hair. You have computers and music classes. The teachers listen to their students and have communication. The teachers treat all students with respect and everyone treats each other equally.

5. How do you like Winnipegers?

They're not lazy. Winnipegers are more relaxed. They are a tough, hardy breed.

6. How is Japan different from Winnipeg?

Winnipeg has two types of weather, Winter and Summer. The Fall and Spring are short but in Japan all four seasons are of equal length. The houses have grass and flowers. The food and people are different and the prices are cheaper here than in Japan.

7. Is your lifestyle different in Japan?

It is much different. I have to get up each morning at 5:30am to get on the bus or the train to go to school. Nailpolish, make-up and dyed hair are not allowed or I'll get suspended from school.

8. When you go back to Japan, what are you going to tell them about your experiences?

There was a lot of snow, the temperature of -35°, the flood and Kraft Macaroni and Cheese.

9. What are your fondest memories of Winnipeg?

My fondest memories of Winnipeg are the different kinds of people, the nailpolish and the styles.

10. Will you return to Winnipeg?

Yes, someday I'll come back.

On behalf of the entire school, thank-you for the interview Minako. Good luck in your future.

Valedictory Address

Vera Gorbay

As I look out at all of you today, I see many different people with different dreams and different ideas. I see mothers, fathers, sisters, brothers, teachers and graduates. I see dreamers, believers and achievers. I see little girls who've grown up from aspiring ballerinas to future doctors. I see little boys who've matured from aspiring football heroes to future business men. I see reluctant cubs who've grown up into ferocious tigers ready to attack the real world. I see the generation of the future.

As graduates, we're all here today to celebrate and to remember the accomplishments, the successes we've achieved, the struggles, the failures, the fears we overcame, the joys, the hopes, the smiles we've embraced, the wonderful friends we've gained and the experiences we've shared. We are all individuals with different memories, good and bad. As young adults, we made mistakes, and as adults we'll make more mistakes. Perhaps we didn't do our homework or our assignments. Perhaps we skipped class, or rebelled against our parents. No matter what our mistakes were, mistakes are the failures we learn from.

I realize that many of you view today as a sad day. Perhaps you will go off to university, you'll be away from family and friends, but even if you never see your friends again, they will always remain in the memories you've shared.

For life is a book. Everyday of our lives we write a new page, and today we start a new chapter. Every event, every family member, every friend, every experience is recorded in our book. Our teachers are the editors of our books. They educated us; they were our mentors. They helped us with questions that needed answers, and we sincerely thank them.

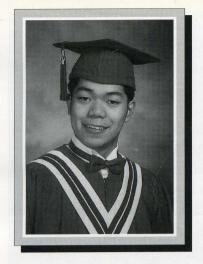

But our parents or our guardians are the covers of our books. They were strong when we were weak, they tried to protect us from the rips and tears of life. They supported us, and watched us grow into independent adults. They were there to see us turn the pages of life, and we thank them, for we would never be as strong without them.

We've finally reached the end of this chapter. St. John's was the key to unlocking many doors, but we are responsible for paving our own road to success. We can not be afraid of taking risks, because it's the risks we don't take that we regret the most. No matter what our dreams may be, if we truly believe with our hearts and minds, we can accomplish the impossible.

Today, we will place a bookmark in this section of our life, and we will always have the opportunity to look back on our adolescent years. Every book has a different ending and I hope our lives will all end with fulfillment.

Thank-you.

Dance,

This day has finally come, and yet this is not the end, but a new journey and new experience is leading my way. As I leave St. John's I will remember

all the fun and good times I had here. I would like to thank my family and friends who have helped me get this far, especially EA for supporting and just being there when I needed you, and for that I am very grateful. I love you always and forever.

I would like to show the following...

A special shout out to all my friends (you know who you are). Have fun, keep trying, work hard. Succeed at whatever you do. To all the couples in

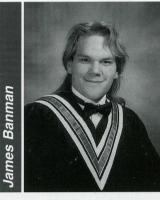

the school, stay together. Well St. John's was fun. Let it stay like that. You know like, "Keep it real", "We won't stop, cause we can't stop", and all that good stuff. Oh yah...to all the artists and writers out there, get good. You will get paid later.
