# A d m i n i s t r a t i o n

Vice Principal Middle Years - C. Penner, Principal - L. Bulka, Vice Principal Senior Years - G. Bouchard

As I reflected on the highlights of St. John's High School for this yearbook message, I was struck by the many successes of our students. We have had an amazing year in the areas of academics, sports and volunteerism and leadership. We are proud of your accomplishments and marvel at your level of commitment.

This dedication and hard work also became evident as I reflected on the contributions of this year's graduates. The impact of our group of graduates was well represented in a message that I came across by the Muscular Dystrophy Association:

"It is said that in our journey everyone leaves footprints...that our prints are made by the impressions of our lives on the sands of time. A person is remembered for the weight of his or her character. For marks of accomplishment. For shapes of kindness. For width of personal warmth. For generosity of values."

Our graduates will be remembered for their personal warmth, their kindness, their generosity and their values. We have witnessed their leadership and have marveled at their successes. Their sense of humour and their free-spiritedness have been evident in all school events.

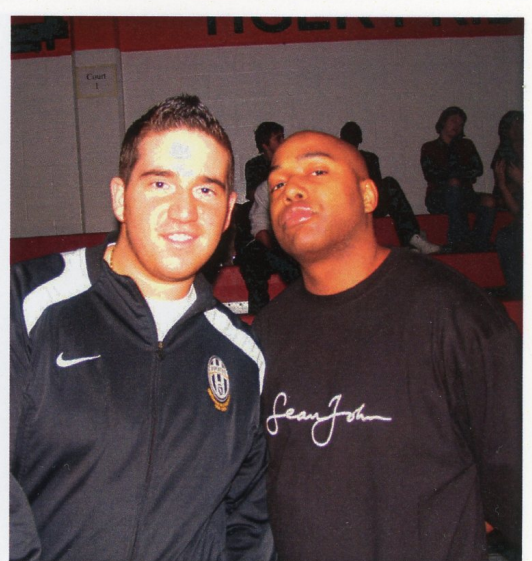

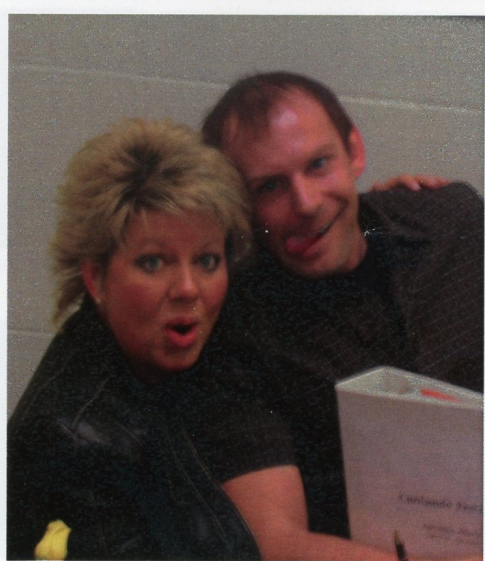

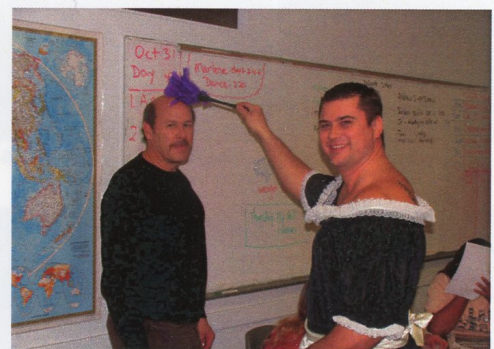

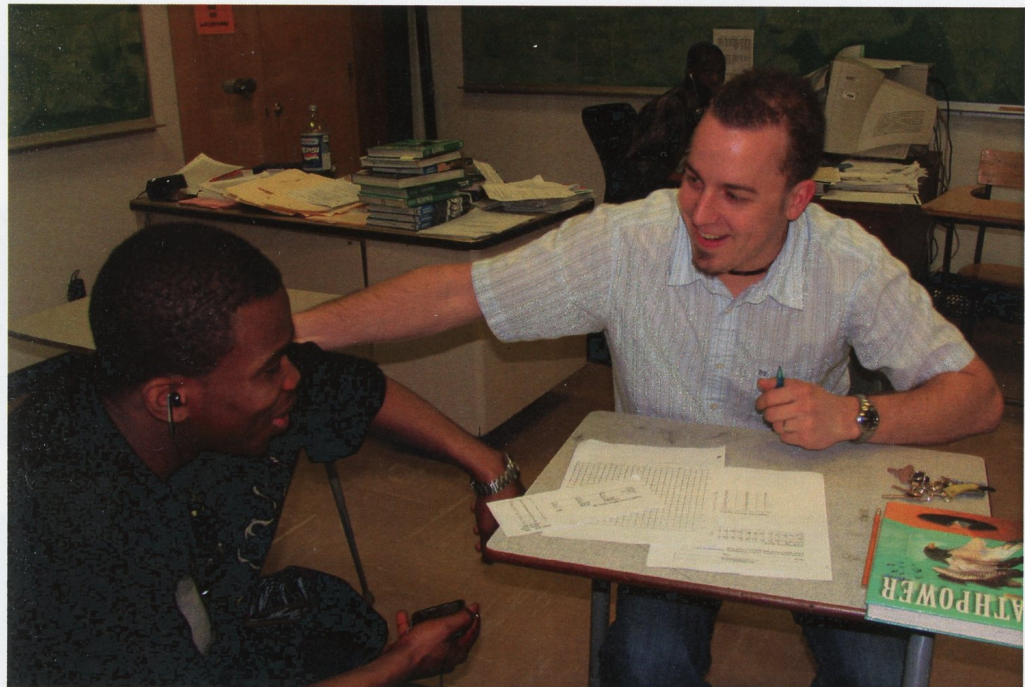

As we prepare to celebrate our 100<sup>th</sup> Anniversary in 2010, we recognize the importance of family and friendships. Our graduates have developed a real connection to one another and with the rest of the student body. I trust that the relationships made at St. John's will become everyone's greatest treasure in the years to come.

As principal of St. John's High School, it is an honour to be associated with such a wonderful staff and incredible students. A special thanks once again to the yearbook committee for truly capturing the many facets of St. John's High School. We are indeed blessed by the rich cultural diversity which surrounds us.

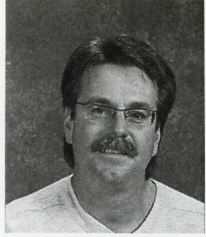

To our 2006 graduates, I wish you every success in whatever direction you take – whether it be continued education or the world of work. May you approach the next phase of your life with the same philosophy you have demonstrated in the past.

"There is no happiness except in the realization that we have accomplished something." - Henry Ford. Kayla and I am sure that the class of 2007 couldn't agree more.

At the beginning of the year Jon and I set goals of what we wanted to accomplish over the year, essentially our platform. Our number one goal was to have students have faith in their student council and to support us throughout that year.

Our second goal was to make student council fun as well as to come up with ideas to keep students interested throughout the year.

Our third goal was to improve on existing events as well as host new and exciting original events

Our fourth goal was to network with different groups within the school such as grad committee and year book as well as other schools like Sisler and DMCI

And our fifth and final goal was, well we never came up with a fifth goal since the lunch bell rang

Our platform was complete and now all we had to do was put it into action. Now as easy as that sounds, there were quite a lot of obstacles that we had to endure in order to succeed.

But by the end of the year Jon and I accomplished our goals that we set forth 10 months ago.

There were a lot of obstacles that we had to endure but we both can say that at the end it was really worth it. Thank you to all those that have contributed to our successes and failures this year and especially thank you to Ms. Rufo and Mr. Stargardter.

To the grads, the best of luck in the future and to never give up as easy as that option is. You've gone this far in life and never lose sight of what you believe in. Albert Einstein said "Try not to become a man of success but a man of value." Congratulations to St. John's High School class of 2007.

Each year the program accepts twenty-five students on a continual intake basis. The students are required to attend YOP workshops and volunteer in the community on a weekly basis. Bi-weekly, they are provided with a small honorarium for their time in the program.

Provincial Champions

You cannot stop Justin Rudolph or the St. John's Rugby Team.

The St. John's High School Rugby team completed its third consecutive season without a loss. In doing so they captured the city and provincial titles. The team had toughness and size provided by Justin Rudolph and Adam Malcolm. Skill and leadership were provided by third year players Danny Grindle and Stephen Banak. The program's future depends on young players such as Dustin Leach, Robert Pearson, Jordan Lee, Steve Mariash and Justin Niemczak. It was a fun-filled, wonderful experience for the boys involved in the program. They earned the respect of every team they played this year. Well done boys. – Coach Pastuch

# Validictory Address - Jessica Seburn

Good morning everyone. On behalf of the St. John's graduating class of 2007, I thank all of you for being here to celebrate with us. Whether you are a family member, friend, teacher, mentor or special guest, we are honoured to have you here. More importantly, thank you for guiding us through school and life all these years. One thank-you is not enough, but the fact that we are here today is proof that you have successfully helped us. For that, we are eternally grateful.

My classmates...we've been through a lot, haven't we? From the silly to the serious: dances, fights, riots, romances and everything in between.

It's important to look into the past to see how far we've come. Everyone was scared on the first day of grade 7. We wondered if we would make friends, if the teachers would like us, if we were smart enough. We soon learned that some friends were true through it all, and some were true until they owed you money. Some teachers inspired us, and some left cameras on when they were not in the room. And sometimes, being smart took a lot of work. The fears we had back then seem silly now, but that day is very much like this one. I know I'm not the only one who is asking myself some hard questions. Will I find my passion? Will we stay friends? Will I be successful? I figured out that these questions are too overwhelming to try to answer. Good thing my homegirl Oprah is always around to give advice and her advice is:

"The big secret in life is that there is no big secret. Whatever your goal, you can get there if you're willing to work."

I believe that you should chase the things that are true to your heart, and don't stop until you have it, or have learned that you are better without it.

My dad enjoys embarrassing me in public by singing. Up until now it has been humiliating and not useful. Recently though, the words of a song stuck with me. This song is Bravado, by a band called Rush. I think the words are very fitting. If we burn our wings, flying too close to the sun. If the moment of glory is over before it's begun. If the dream is won, though everything is lost. We will pay the price, but we will not count the cost.

Everything hit me when I was straightening my hair for grad pictures. I really began to wonder what I was leaving behind at St. John's. Eventually, the dent in that locker will be fixed from the

time I tried to be a track star. (Note to self: Learn how to stop) And no matter how many times we write our names on the walls, they will be painted over. If someday our pictures are taken down and our trophies are put away, just remember that these

are not signs of being forgotten; but an acknowledgement that we have moved on to better things.

I will miss making memories at this school. I will miss the big events, and I will equally miss the small, special moments I have experienced. I don't have time to go through all of my favorite memories, so I will just share one. This memory starts off by me reiterating that I am not an athlete. I excel in catching the ball with my face and tripping over my own feet. But if you are an athlete at St. John's, then you may have seen me on the sidelines. (I was the one screaming like a maniac.) I didn't just go to games to be entertained, but to cheer our school on. You've all amazed me with all the wins and losses. There are two football games that I will never forget; the first one and the last one, but my pride was the same at both. I was proud that the team I was cheering for never stopped playing their hardest. The truth is,

life is not like a football game. There is no scoreboard telling you whether you're winning or losing, you are going to have to define winning by yourself. If you truly love where you are in life, then you are winning, don't let anyone else tell you where you should be, or what you should be doing.

Well, I'm almost done. I will end off by saying that I will miss all of you very much. Even though the world beyond high school may seem scary, don't let the fear of flight make you forget you have wings. So go out there and fly!

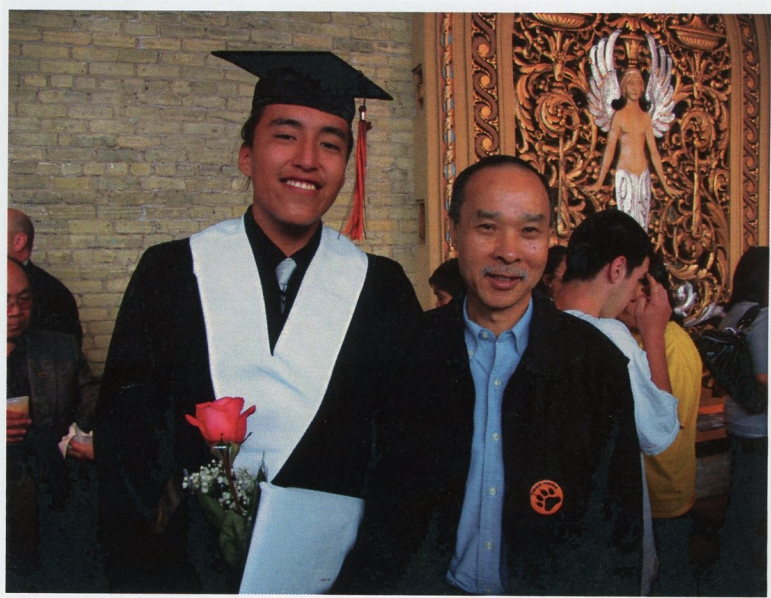

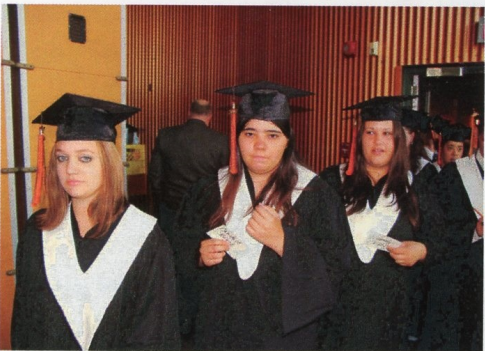

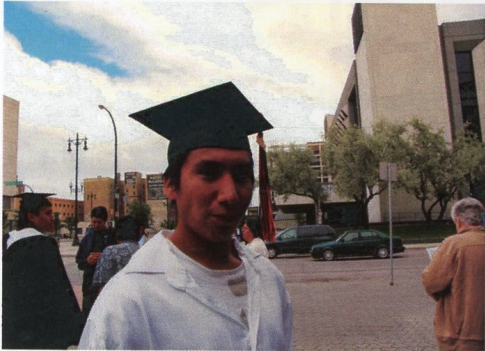

And when you laugh, be sure to laugh loud,  
Because it will carry all your cares away,  
And when you see,  
See all the beauty all around you and in yourself  
It will help you be okay.

And when you pray,  
Pray for strength to carry on  
When troubles come your way.

Congrats class of 2007

We are the tigers and may we never change our stripes.

There's no such thing as art. All aspects of art exist within the mind. Every painting, dance group, sculpture, your AABB rhyme theme are an extension of imagination. Art involves thinking, thinking improves intelligence, intelligence promotes growth, growth builds character, character makes us who we are. Hence, art is about growing.

Keshia Campbell
