Our Top Tigeress

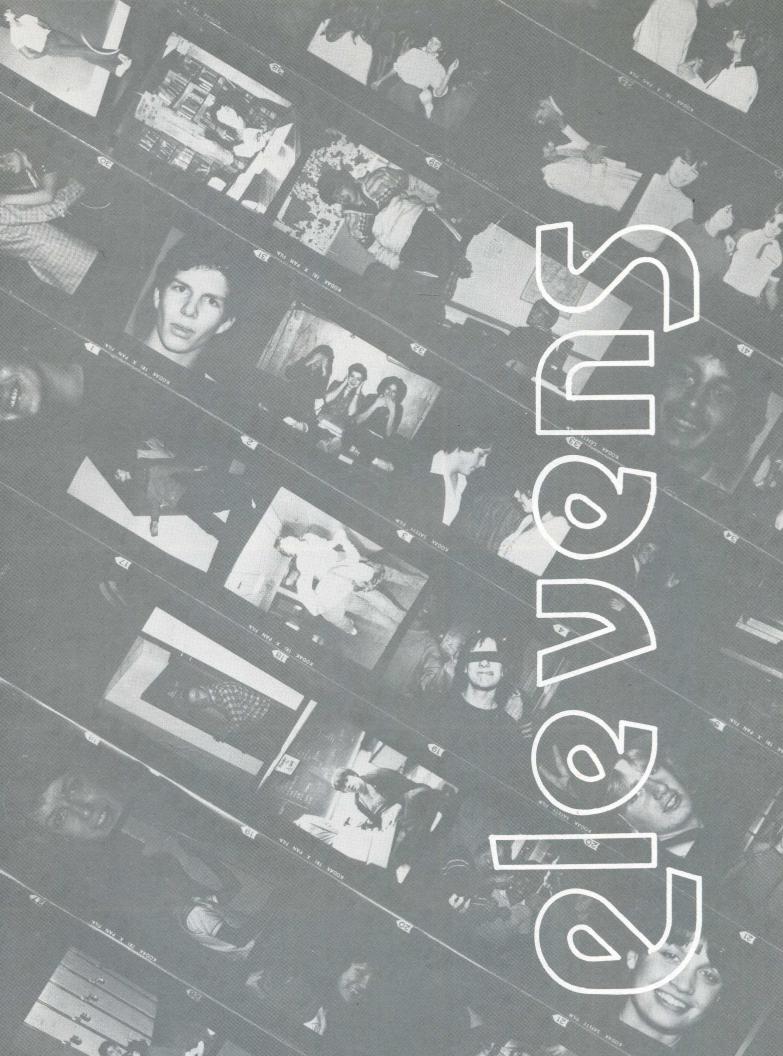

Dr. H. Sharman Principal

It is with a great deal of pleasure that I offer my congradulations and best wishes to the class of '83.

At the time of graduation it is customary to look into the future with anticipation and excitement and perhaps a little trepidation. And so you should for "today is the first day of the rest of your life". You have decisions to make and promises to fulfill and dreams to realize. However, you should also spare a moment to look back on what you have already achieved. Two-thirds of your life to date has been spent in school. You have learned a great deal. Much of what you have learned you have learned in the classroom. Much more has been learned in the informal interactions with your teachers and with your friends. The lessons of sharing, of good sportsmanship, of hard work and dedication, of the joy of achievement, of the pleasures of friendship will be with you always. May you cherish them.

The graduates of St. John's High School have distinguished themselves as citizens of Winnipeg and of

Canada. Join this group with pride; you have much to contribute.

Principals, teachers, fellow students, ladies and gentlemen:

Well, this is finally the day! Graduation! The very word strikes terror in the hearts of some, rejoicing in others, but for most of us, a touch of sadness.

For as long as I can remember, graduation has meant THE END, the day when I could finally scream "no more pencils, no more books" and really mean it. But I'm finding now that graduation is not the end. It is a stepping stone for all of us to the great "life after high school", and yes, life after high school DOES exist. For some of us, it means more years in a classroom at university or college, for others, it is work or travel, or some as yet unknown activity. But, whatever it means to us, it all begins tomorrow as we leave St. John's behind. No matter the direction in which you are headed, remember St. John's because I'm sure you will never forget these years. There were good times, and bad, of course, but it was the bad times that seemed to make the good better. We had many good times in the hallways, the cafeteria, the gym, the classrooms, and the infamous I.S.'s. Recall these places where we would gather and talk and sometimes even study. Although these memories may not seem all that important to you now, hold on to them, for as years pass, they will grow fonder and more cherished.

After these years at St. John's, what have we gained? What does this diploma we're getting mean? It means that we have succeeded academically in our twelve years of schooling and have earned the honour of being called a high school graduate. But this diploma will symbolize more than that. In twelve years, we have learned more than just the three R's -- we have learned love, compassion, forgiveness, pride, gratitude, patience, modesty, discipline, and much, much more.

However, we have not discovered these things alone. Always there have been parents and teachers at our side helping us along the way. Parents -- the word signifies security whenever I think of it. Graduation is not only a celebration of our own success, but of our parents' as well. Who else would have put up with our demands, our childish temper tantrums, and our frustrating behaviour that was often taxing? Parents, for your endless encouragement, devotion, and love, our graduation is also a tribute to you.

Teachers, you may also look on this special day as a reflection of your success. You can each proudly say that you were an important link in the lives of every graduate sitting here today. When we were confused in relating our education to life, you were there, giving advice and support to your fullest. I feel proud that I have had the chance to become associated with so many dedicated educators in my years at St. John's.

Above all, fellow graduates, I hope that we have all grown more than just a little older, but also a little wiser. For wisdom cannot be learned, it must be gained from personal experience. Our elders have bestowed upon us wisdom from their own experiences and we can only benefit from it by testing ourselves in new challenges and new goals. Growing can be defined as setting new goals for ourselves and raising them once we have achieved them. When we look back on this day, we will remember the apprehension that we are feeling right now -- apprehension about what Fortune holds for us. We should always remember our friends and companions, for after graduation, we may never see one another again. Take a look around at your graduating class, consider all your classmates sitting just a few feet away from you -- think of all that we have shared with one another. When you groaned at the thought of more homework on the weekend, so did I, when I raced back to homeroom to get my report card, so did you, and when you counted the hours until this day, so did I.

If there is a grad you have never spoken to before, take the opportunity to do it today. Yoy may make another friend, a wealth that will last for always.

Do you remember the day that we finished grade six when we promised each other that junior high would never weaken our friendship? That we would be best friends forever? Well, that time has come again and without a doubt, many of us have made these same promises the second time around, but just as before, we will eventually drift apart and make room for new friends. Although we never really lose friends, the thought of losing touch with them saddens me. But I realize that changing and gaining friends is a natural part of living and growing. Time will not stand still for us to maintain our current relationships, so cherish them now, and in later years, remember the fun and the laughter that we have shared together.

To the graduates of '84 and '85, you would do well to stay at St. John's and to aim for success with the full support of members of the faculty. In everything you do, do the best you can, whatever you can, for as long as you can. In accomplishing this, you will gain self-respect and pride in whatever you do, a measure of true success.

Graduates, this is the end of high school for us. There is a world waiting for us outside high school and we must now reach for our stars as we step into adulthood and new responsibilities. St. John's, we say farewell to you now. Thank you for being there through our tears and our joys. Class of 1983, I wish you all the kindest that Fortune has to offer for your future. Live, love, and laugh, as we have done here at St. John's. Thank you.

Congratulations Grads!
