### Principal's Message

Mr. Wilkes

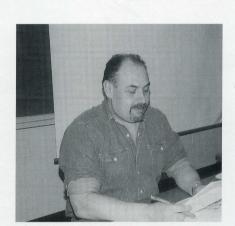

This yearbook is a reflection of the many achievements and good times that you, as students, have experienced this year. As you look through the pages; I am sure you will be reminded of the many activities, friendships, and dedication of your teachers. With your hard work, the support of friends, and the interest of the adults around you, this year has taken you one more step further on your life journey.

The yearbook committee, with the untiring assistance of Ms. Hall and Ms. McCasin, deserves a great deal of credit for producing a yearbook which captures the essence of the 1997/98 school year at St. John's.

Graduates, many of you entered St. John's at the age of twelve; young and impressionable. During this exciting and active time in your life, you have shown incredible growth. You have developed friendships, with both your peers and staff, that will last a lifetime. What you have learned through your academic studies, extracurricular activities, and social interactions will stand you in good stead as you venture out into the bigger world with new and exciting opportunities. The bonds you have made, coupled with your knowledge and skills, will provide you with the confidence and inner strength to be excited by the challenges that await you. You are leaving St. John's as adults. Congratulations on your achievements and all the best for the future.

Ms. Barkwell

Mr. Belmore

Mr. Furtado

### President & Vice President

In the words of Tony the Tiger, the 1997-1998 school year was 'Grr-eat!!'. The teachers we've had and the friends we've made completed our stay at St. John's. We will remember all of you forever. The school year started with the football pep rally. Seeing the enthusiasm of the students made us realize the meaning of 'Tiger Pride'. Our soc hops have been the best attended in years.

Council meetings were a blast! A typical Tuesday lunch conversation would go as follows: "How long is the meeting going to be?" "15 minutes, we don't have much to talk about." We always found more to talk about, and meetings ended up going until one o'clock. "Sorry we're late; we were doing stuff for Council."

We always seemed pressed for time, forgetting to mention our schemes to someone important. We put each other through a lot during our time together at St. John's. Hitting each other with our locker doors, wondering who stuck us next to one another all four years. But one was always there for the other, through thick and thin.

We are content in knowing we have bettered life at St. John's and raised awareness about various issues. Remember "Addictions Awareness Week" and "Day of the Dead."

A special thank you to Mr. Wilkes, Mrs. Stargardter, Mr. George and Student Council members for your blood, sweat and tears, especially to those who stayed to the end. To the graduates, never be afraid to show your stripes and hold the "torch" high. To the Tiger Cubs who follow in our footsteps, take care of our school.

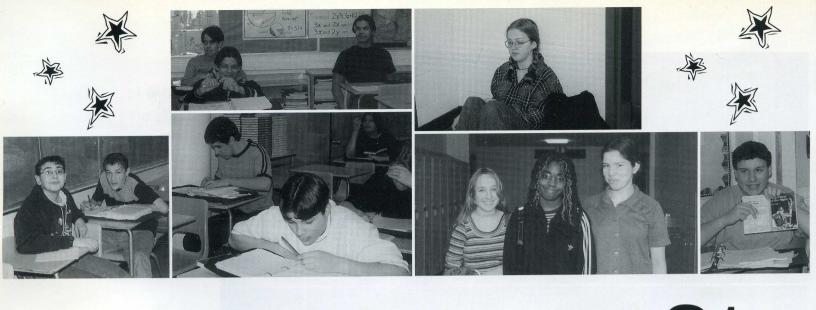

Sonia Solivar and Tanya Sveinson

# Valedictory Address

As I look around this auditorium, I am reminded of how different we have all become. We began six years ago as small, frightened children. Today we leave mature, self-confident adults. But I can still see a reflection of those children in each of your faces. We have grown together, learned together, and helped each other when we were down. We have become the loyal and proud Tigers we were meant to be.

It is amazing how happiness is found in the little things. I remember clearly how two friends of mine would become ecstatic if I brought them a candy cane. It amazed me that such a small thing could mean so much. We all have many memories like that, good and not so good ones that bring a smile to our faces. We have memories of cramming for tests, and sleepovers where we did silly things. There are the infamous soc hops and wild parties. Learning the Sine Law, Man-fit in Phys. Ed., Fashion Shows, Algebra and Physics Labs. What reminiscing could be complete without a fond memory of Gym Riot. And of course we all "celebrated" when we passed the Provincial English Exam. Our thoughts and memories of St. John's shall always be cherished.

It hasn't been an easy road that we obstacles we have had to overcome. wavered from the path there was right direction. If our grades were willing to help, often on their own We have been very lucky at St. John's, have taught us many things not on the learned self discipline, pride in

Our parents or guardians helped us in kicked us in the behind when we didn't. They offered us love and They waited up for us, grounded us aged us, and pointed out our wasn't for them.

Lottie-Jean Kimball

have followed. There have been many But whenever we have stumbled or always someone to point us in the falling, there was always a teacher time. Not all teachers are like that. we have teachers who care. They curriculum, from them we have ourselves, and patience.

ways our teachers couldn't. They needed it, and sometimes when we support, even if we didn't deserve it. but always forgave us. They encourmistakes. We wouldn't be here if it

When I look around and see all of my peers, it reminds me of what a unique school St. John's is. Never have we allowed race, religion, or ignorance to come between what we believed. We have been proud to be different, proud to co-exist in a school where being different is acceptable. Today in our caps and gowns, we are united and when we leave here to follow our separate roads, whether they are work, travel, or further education; we will always remember each other. No matter where our roads lead we will all carry the spirit of the Tiger and the strength of the torch in our hearts. If we ever feel discouraged we will remember the words of Donovan Bailey when he visited our school, "You can be and do whatever you want and dream." Congratulations Grads of '98!

Thank-you.

# PRESIDENTIAL FAREWELL ADDRESS

Good morning Mr. Wilkes, parents, friends and fellow graduates. When I look back at my six years at St. John's High, I think about what a great time I've had. I remember my first day in grade seven way back in 1992, and I never would have imagined myself here today addressing you as President of the Student Council. Being a student at St. John's has presented me with many different and exciting experiences; Virden volleyball tournaments where we showed our North End Tiger Pride, not to mention track or theatre trips, pep rallies and soc hops which I boast were the best attended in years. I'd like to thank all the Student Council members for sticking by me, and making the school year great.

To Mr. Wilkes, our principal for the school year of 1997-98, thank you for all the time you've spent with us. Even though we were more like chickens with our heads cut off, you never hesitated allowing Tanya, my vice-president, and I to put on any of our crazy schemes.

To the teachers; thank you for the countless hours you've spent preparing us for tests and Provincial exams. Thank you for the guidance, persistence and your helping hands. You've educated us and have been our mentors. You hounded us about attendance and reminded us constantly about the importance of doing our homework. You were all so understanding about Council members being late. Well, some of you..... We couldn't have done this without you. I know that I'll miss your advice on what to do in the future, and how to invest in the stock market. I'm sure you will all miss my storytelling.

To our family and friends, thank you for your love and patience. You supported us and encouraged us to always do our best. You grounded us when our grades weren't high enough and rewarded us when they were better than you had expected. You were there to cheer us on whether it was a basketball game or a Christmas concert, and you waited up for us when we were late. Over the years you've watched us grow from children to adults; from cubs into tigers.

And finally to my fellow graduates; as we are united here today in our caps and gowns - about to go down our separate paths - I'd like to thank you for being my friend, my lab partner, for lending me a shoulder to cry on or to give me a kick in the butt when I needed one. Being a student at St. John's was one of the best experiences I've had because of you. I won't remember the twelve minute runs in Phys. Ed. or doing science labs; well maybe the ones that dyed my fingers strange colours, but I will remember all of you forever.

I know that sometimes as the graduating class of 1998, our future may look bleak. Some of us don't know what we want to do or where we will be going; but I know one thing for sure - we are all going to succeed. Among us I see many smart, talented people with many different paths in mind. I see successful athletes, doctors, accountants, teachers, engineers, secretaries, psychologists, musicians, parents. We can compete with the best of them. I see 105 young adults who will carry the prowess of a tiger wherever they go. One thing I've learned from my stay at St. John's is which bridges to cross, and which ones to burn. I know there is a bridge, a special bond connecting each and every one of us. No matter where we go, we will all possess an aura that says, "Don't mess with me 'cause I'm a Tiger. I come from St. John's. No, NOT Ravenscourt, the school in the North End of Winnipeg."

We've grown up determined to prove ourselves to the world. Other schools can sense our closeness. Whether it's at a volleyball game or a social outside St. John's walls; we, Tigers, will stick together. We will fight for each other, cheer for each other and celebrate when one of us has achieved some form of greatness. And when our paths cross again, because I know they will; we will not hesitate to help one another. We will walk through this world as a pride of tigers and recognize each other by the torches that burn in our hearts.

Now in the words of Dr. Seuss; someone we can all relate to, I'll end my speech.

"Congratulations! Today is your day.
You're off to Great Places! You're off and away!
You have brains in your head. You have feet in your shoes.
You can steer yourself any direction you choose.

You're on your own. And you know what you know. And YOU are the one who'll decide where to go. So be sure when you step. Step with care and great tact and remember that Life's a Great Balancing Act.

Just never forget to be dexterous and deft. And never mix up your right foot with your left. You're off to Great Places! Today is your day! Your mountain is waiting. So...get on your way!"

Sonia Solivar
