Principal's Message to Graduates

I bid you farewell with a deep sense of pride and affection. I have come to know many of you as individuals in various aspects of school life. I have come to know the unique characteristics, accomplishments and frailties of so many of you.

Throughout your years at St. John's High School it has been our major purpose to help you grow into intelligent, compassionate and responsible citizens. It has been our objective to build in you an unwavering appreciation of and a loyalty to the democratic values upon which our nation stands. Our emphasis has always been to develop in you the necessary skills that you will need for a sound future. This foundation will not only serve you well in your pursuit for higher education, if that is your goal, but will be of advantage to you in your everyday life, educational journey, business endeavors or whatever path you choose. Each of your teachers has had much to offer you. They have contributed and influenced your intellectual, social and emotional growth. You have the necessary tools to get the job done. I have no doubt that you will carry on in the 'Tiger Pride' tradition of the thousands of St. John's High School students who preceded you and are now active, productive members of our society, no matter what their walk of life.

As Principal, I have one earnest wish for you: Live your lives in such a way that will reflect credit upon yourselves, your parent/guardians and your community. I echo the wishes of our staff when I wish you well in your tremendous commitment, day in and day out, for continuing the rich legacy of St. John's High School and the North End, and to each of you, good luck in all of your future endeavors.

Linda Bulka

STUDENT COUNCIL

I want to thank all the student council members that helped and participated in this year's council. Without your dedication and cooperation, this year's events would not have been as much fun and would have been far less successful. I Especially want to thank the Executive Student Council Members, who helped me and Carla to make the best decisions for the school.

Student Council is not only about hosting events to bring about fun while in school, but we also helped raise money for a good cause. In saying this, student council has donated a fair amount of money to numerous groups and charities.

On behalf of Student Council, we would like to thank our advisors Ms. McDonald and Mr. Stargartder for guiding us and making sure Student Council was a success.

-Shiela Toledo

Valedictory Address.

Good morning parents, guardians, friends and of course my fellow graduates. Today we are gathering here to celebrate the graduating class of 2011 from St John's High School. First of all, I would like to thank our families, friends and staff for always being there whenever we needed them, without your support none of us would be sitting here today.

Oh, how I am going to miss my graduating class. I remember my first day at St. John's. I was scared, I didn't know the language, and I didn't know anyone. Trust me, it was a scary place to be. But it wasn't long before people approached me, talked to me, took me in and I made friends very quickly. I remember sitting down with my cousins and I said, "For the first time since I'd arrived in Canada: I feel welcomed" and smiled.

I know we students, we have our ups and downs, dislikes for each other, arguments, but in the end, love is felt and smiles are shown! Because with all we've been through, the least we can do is forgive each other and forget.

I will truly miss my graduating class and I will always cherish memories that we have shared. And all I can hope for is that we stay connected. I remember when I had hard times, I felt like giving up and couldn't keep up with my classes. There was a time I hated school with all my heart, but my teachers didn't see the person I thought I was. They saw the strength in me that I never knew I had. They believed in me, and when I was down, they were there to pick me up. And for that I truly thank you all. I mean this from the bottom of my heart.

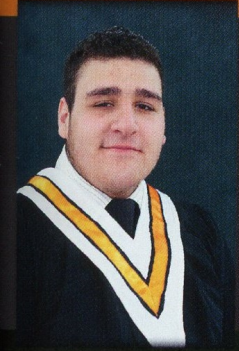

For someone like me or perhaps others who live with only their siblings, life can be difficult at times. Not having your parents or an adult you can count on at home can be really hard. But the relationships I have built with teachers at this school have been amazing. As I became closer to some of my teachers, they became more like family. I think a lot of us feel that way. They were there when I needed someone to talk to, when I needed advice and I knew I could count on them anytime. St. John's does not only teach Biology, English and Math. They also teach how to be brave, believe in ourselves and not be discouraged by our doubts.

Marianne Williamson once said, "Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light not our darkness that frightens us. We ask ourselves who are we to be brilliant, gorgeous, talented and fabulous? Actually who are we not to be?"

This tells us to not set limits for ourselves. Don't let the darkness scare you from what you want in the future because if you dream it, you can become it. Nothing is impossible. You can be whoever you want to be in the future if you wear the confidence and believe in yourself. Do not be afraid to take chances. Try it ten times, if you fail the eleventh—keep going, the only thing that should limit you is the sky.

I would like to end by saying that I know we are all excited to leave high school and afraid of a new beginnings. But you know what? The elevator to success is out of order, so we will have to take the stairs one step at a time. And the fact that we had strength to finish grade 12 means we are half way there. Success won't just come to us; we have to be willing to meet it half way. Now that we have finished high school, nothing can bring us down. We made it. It's now time for us to take the next step on our new journey. Congratulations, my fellow graduates. Thank you.
